Splunk Enterprise Security Release Notes

Release notes for Splunk Enterprise Security

This version of Splunk Enterprise Security is compatible only with specific versions of the Splunk platform. See Splunk Enterprise system requirements in the *Installation and Upgrade Manual*.

Because the navigation now respects your local changes, you might need to make changes to the navigation menu bar after upgrading. See **Configure > General > Navigation** to see which views are upgraded, new, or deprecated.

Current versions of Splunk Enterprise Security only support TAXII version 1.0 and TAXII version 1.1.

What's new

Splunk Enterprise Security version 6.6.2 does not include any significant enhancements.

Deprecated or removed features

Following is a list of deprecated or removed features in Enterprise Security:

Deprecated Feature	Comments
No option to run real time searches on the Incident Review page	The option to run a real time search is no longer available on the Incident Review page from release 6.6.2 or higher. Additionally, you may encounter issues in the display of search results if you run real time searches on the Incident Review page in releases 6.6.0 or lower.
No support for sending notable events from Splunk Enterprise Security to Splunk UBA	Support for sending notable events from Splunk ES to Splunk UBA will be removed in a future release. Configure a Splunk ES Notables data source or use Splunk Direct to pull notable events from Splunk ES to Splunk UBA. See Pull notable events from Splunk ES to Splunk UBA.
No browser support for Internet Explorer	Browser support for Internet Explorer 11 is no longer available in Enterprise Security version 6.6.0 or higher.
No support for glass tables	Glass tables are no longer available in Enterprise Security version 6.6.0 or higher. A comparable feature called Dashboard Studio is available in the Splunk platform. See What is the Splunk Dashboard Studio? in the Splunk Cloud Platform <i>Splunk Dashboard Studio</i> manual and What is the Splunk Dashboard Studio? in the Splunk Enterprise <i>Splunk Dashboard Studio</i> manual. Do not upgrade to ES 6.6.0 or higher if you need to continue using Glass Tables.
Extreme Search (Splunk_SA_ExtremeSearch) macros removed	The following Extreme Search macros that were previously deprecated are removed as of Enterprise Security version 6.6.0: [xs_default_direction_concepts], [xs_default_magnitude_concepts], and [xs_default_change_concepts]
No support for Malware Domains threatlist	The Malware Domains threatlist is not supported in Enterprise security version 6.5.0 or higher.
Domain Dossier is removed from Enterprise Security	Domain Dossier is not available in Enterprise Security 6.5.0 or higher.
Option to search with Google within the ES application may pose inherent security risks as it may direct you to third party websites.	Option to search with Google is not available in Enterprise Security 6.5.0 or higher.

Deprecated Feature	Comments
The <code>master_host</code> settings for Identity Manager and Intelligence Downloads in search head pooling	Settings are obsolete for Enterprise Security 6.3.0 and higher.
Bundled technology add-ons in the ES installer. See Add-ons .	Bundled technology add-ons are not included in Enterprise Security 6.2.0 and higher.
Compatibility with Python 2 and Machine Learning Toolkit 4.0.	Enterprise Security 6.1.x is compatible with Python 3 only. Enterprise Security 6.1.x release is compatible with Splunk Enterprise versions that ship with only Python 3 interpreter and MLTK 5.0 and higher.
Splunk Add-on for Tenable and Splunk_TA_nessus	These add-ons are removed from the ES installer.
Threat intelligence sample files	These threat intelligence sample files are removed from DA-ESS-ThreatIntelligence/default/data/threat_intel/: Appendix_D_FQDNs.xml, Appendix_F_SSLCertificates.xml, Appendix_G_IOCs_No_OpenIOC.xml, fireeye-pivy-report-with-indicators.xml, and Mandiant_APT1_Report.xml
Setting that enables SSL for Splunk Web	A system setting that is not enabled and disabled by the Enterprise Security app.
The <code>luhn_lookup</code> custom lookup script for detecting personally identifiable credit card information	Enterprise Security uses <code>luhn_lite_lookup</code> instead of <code>luhn_lookup</code> .
The <code>getcron</code> search command	join my_saved_search_name [rest splunk_server=local count=0 /services/saved/searches table title,cron_schedule rename title as my_saved_search_name, cron_schedule as cron] instead of the search command: getcron inputField=my_saved_search_name outputField=cron.
Audit dashboard for content profile	Use Content Management data model row expansion instead of using Audit dashboard for content profile. See Expand Content Management searches to view dependency and usage information in Splunk Enterprise Security.
Lookup generating search for Traffic Volume Tracker	Removing this search resolves issues with exporting all objects in Content Management.
Automatic (continuous) creation and deployment of the "indexer package" (Splunk_TA_ForIndexers) to the Indexer tier via deployment server proxy feature	See Deploy add-ons to indexers.
The <code>notable_adhoc_invocations</code> macro in the SA-ThreatIntelligence app	Use the incident review saved search to fix ad-hoc alerts on sequenced events instead.
Alexa Top 1 Million Sites	See Included generic intelligence sources for alternatives.

End of support schedule

Refer to Splunk Support Policy to verify the end of support date for your Enterprise Security version.

Add-ons

Technology-specific add-ons are supported differently than the add-ons that make up the Splunk Enterprise Security framework. For more information on the support provided for add-ons, see [Support for Splunk Enterprise Security and provided add-ons](#) in the *Release Notes* manual.

Deprecated or removed add-ons

Splunk Enterprise Security no longer includes many of the technology add-ons in the Splunk Enterprise Security package. Instead, you can download the technology add-ons that you need directly from Splunkbase. This change improves the performance of Splunk ES by reducing the number of unnecessary enabled add-ons, and allows you to install the most appropriate and updated versions of add-ons when you install Splunk ES.

The following technology add-ons are removed from the installer, but still supported:

- Splunk Add-on for Blue Coat ProxySG
- Splunk Add-on for McAfee
- Splunk Add-on for Juniper
- Splunk Add-on for Microsoft Windows
- Splunk Add-on for Oracle Database
- Splunk Add-on for OSSEC
- Splunk Add-on for RSA SecurID
- Splunk Add-on for Sophos
- Splunk Add-on for FireSIGHT
- Splunk Add-on for Symantec Endpoint Protection
- Splunk Add-on for Unix and Linux
- Splunk Add-on for Websense Content Gateway

The following technology add-ons are removed from the installer, supported for the next year, but are deprecated and will reach end of support one year from the release date of this Enterprise Security version:

- TA-airdefense
- TA-alcatel
- TA-cef
- TA-fortinet
- TA-ftp
- TA-nmap
- TA-tippingpoint
- TA-trendmicro

Splunk Enterprise Security 6.6.0 was released on June 30, 2021. For more information on release dates for the major versions of Splunk Enterprise Security, see [Software Support Policy](#) page.

End of Life

- Splunk Add-on for NetFlow announced: March 18, 2019 | Ends: June 16, 2019
- Splunk Add-on for Tenable announced: April 8, 2019 | Ends: July 7, 2019

Updated add-ons

The Common Information Model Add-on is updated to version 4.20.0.

Libraries

The following libraries are included in this release:

- Splunk_ML_Toolkit-5.2.0-1588985117706
- Splunk_SA_Scientific_Python_linux_x86_64-2.0.1-0

- Splunk_SA_Scientific_Python_windows_x86_64-2.0.1-0

Fixed issues for Splunk Enterprise Security

Splunk Enterprise Security 6.6.2 was released on September, 2021. For more information on release dates for the major versions of Splunk Enterprise Security, see Software Support Policy page.

This release includes fixes for the following issues:

Date resolved	Issue number	Description
2021-08-30	SOLNESS-27985	Incident Review sorting reverts to chronological ordering when switching between pages (as opposed to default, reverse-chronological order)
2021-08-27	SOLNESS-27747	Notable event suppressions do not work after an upgrade to ES 6.6.0 and Splunk 8.2.1. Notable events suppression worked in ES 6.2.0 and 8.0.4.1.
2021-08-25	SOLNESS-27837	IR dashboard does not load on ES 6.6.1

Known issues for Splunk Enterprise Security

Splunk Enterprise Security 6.6.2 was released on September, 2021. For more information on release dates for the major versions of Splunk Enterprise Security, see Software Support Policy page.

There are no known issues in this release.

Date filed	Issue number	Description
2021-09-24	SOLNESS-28349	<p>Incident Review is empty with javascript error <code>TypeError: e.replace is not a function</code> when displaying notable a multivalue field.</p> <p>Workaround: Add the following two lines at the end of the saved search Incident Review - Main to ensure that all the fields have a single value.</p> <pre> foreach * [eval "<<FIELD>>"=mvjoin('<<FIELD>>'," ")]</pre> <p>This breaks the separate context menu for multivalue fields in the details of a notable. Remove the local copy of this search after upgrading to a version where this issue is resolved.</p> <p>OR</p> <p>Remove the columns from the Incident Review table that might potentially have multivalue fields. For information, see https://docs.splunk.com/Documentation/ES/Admin/CustomizeIR#Change_Incident_Review_columns.</p>
2021-09-21	SOLNESS-28240	IR search not matching on keywords in the title
2021-09-16	SOLNESS-28194	

Date filed	Issue number	Description
		Incident Review: When using the "Date & Time Range" option for the timepicker, the selected time will change when pressed. Apply if the user timezone doesn't match the server timezone
2021-09-14	SOLNESS-28180	<p>Unable to load a newly created adhoc managed lookup from Content Management.</p> <p>Workaround: Edit the permissions of the lookup to export globally and read/write to the appropriate users.</p>
2021-09-07	SOLNESS-28046	<p>If "Incident Review - Table Attributes" has been changed before upgrade to ES 6.6, Incident Review is missing new fields, Disposition</p> <p>Workaround: You can check if "table_attributes" in /etc/apps/SA-ThreatIntelligence/local/log_review.conf exists, and remove it to revert to defaults for 6.6 (and customize again after if needed)</p> <p>or manually add the fields below to the table as per https://docs.splunk.com/Documentation/ES/latest/Admin/CustomizeIR#Change_Incident_Review_defaults</p> <p>defaults for 6.6.0:</p> <pre>table_attributes = [\n {\n \"field\": \"rule_title\", \"label\": \"Title\"},\n {\n \"field\": \"risk_object\", \"label\": \"Risk Object\"},\n {\n \"field\": \"risk_score\", \"label\": \"Aggregated Risk Score\"},\n {\n \"field\": \"risk_event_count\", \"label\": \"Risk Events\"},\n {\n \"field\": \"notable_type\", \"label\": \"Type\"},\n {\n \"field\": \"_time\", \"label\": \"Time\"},\n {\n \"field\": \"disposition_label\", \"label\": \"Disposition\"},\n {\n \"field\": \"security_domain\", \"label\": \"Security Domain\"},\n {\n \"field\": \"urgency\", \"label\": \"Urgency\"},\n {\n \"field\": \"status_label\", \"label\": \"Status\"},\n {\n \"field\": \"owner_realname\", \"label\": \"Owner\"}\n]</pre>
2021-09-01	SOLNESS-28019	<p>"src" or "dest" fields of Threat Activity events showing as "unknown" even though "threat_match_fields" is src or dest</p> <p>Workaround: # Navigate to the threat intelligence management page and click on the threat matching tab</p> <ol style="list-style-type: none"> 1. Click on, for example, "src" to edit that threat match configuration 2. Scroll down on the modal and click the pencil for the first data model dataset 3. Click on the "+ Add aggregate" and add "<datamodel>.src as src" to add the source field as an aggregate. 4. Click Save. 5. Repeat for other datasets as needed 6. Repeat all steps for other threatmatch configurations as needed

Support for Splunk Enterprise Security and provided add-ons

Splunk Enterprise Security is a premium app that supports additional add-ons to make it easier for you to add data to your Splunk deployment. Support for Splunk Enterprise Security is different from the support for the add-ons that help you get data in.

- The add-ons that include "SA-" or "DA-" in the name make up the Splunk Enterprise Security framework. These add-ons are supported in accordance with the Purchased Software with Active Support Subscription section of the Splunk Software Support Policy. See Splunk Software Support Policy.
- The rest of the add-ons include "TA-" in the name and are technology-specific and provide the CIM-compliant knowledge necessary to incorporate that source data into Enterprise Security. These add-ons are available for your convenience and are supported differently than the add-ons that make up the Splunk Enterprise Security framework. See the Splunk Extensions section of the Splunk Software Support Policy. See Splunk Software Support Policy.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work

or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory,

whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by

name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

PYTHON SOFTWARE FOUNDATION LICENSE VERSION 2

1. This LICENSE AGREEMENT is between the Python Software Foundation ("PSF"), and the Individual or Organization ("Licensee") accessing and otherwise using this software ("Python") in source or binary form and its associated documentation.

2. Subject to the terms and conditions of this License Agreement, PSF hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python alone or in any derivative version, provided, however, that PSF's License Agreement and PSF's notice of copyright, i.e., "Copyright (c) 2001, 2002, 2003, 2004, 2005, 2006 Python Software Foundation; All Rights Reserved" are retained in Python alone or in any derivative version prepared by Licensee.

3. In the event Licensee prepares a derivative work that is based on or incorporates Python or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such

work a brief summary of the changes made to Python.

4. PSF is making Python available to Licensee on an "AS IS" basis. PSF MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, PSF MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

5. PSF SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

6. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

7. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between PSF and Licensee. This License Agreement does not grant permission to use PSF trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

8. By copying, installing or otherwise using Python, Licensee agrees to be bound by the terms and conditions of this License Agreement.

BEOPEN PYTHON OPEN SOURCE LICENSE AGREEMENT VERSION 1

1. This LICENSE AGREEMENT is between BeOpen.com ("BeOpen"), having an office at 160 Saratoga Avenue, Santa Clara, CA 95051, and the Individual or Organization ("Licensee") accessing and otherwise using this software in source or binary form and its associated documentation ("the Software").

2. Subject to the terms and conditions of this BeOpen Python License Agreement, BeOpen hereby grants Licensee a non-exclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use the Software alone or in any derivative version, provided, however, that the BeOpen Python License is retained in the Software, alone or in any derivative version prepared by Licensee.

3. BeOpen is making the Software available to Licensee on an "AS IS" basis. BEOPEN MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, BEOPEN MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF THE SOFTWARE WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

4. BEOPEN SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF THE SOFTWARE FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF USING, MODIFYING OR DISTRIBUTING THE SOFTWARE, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

5. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

6. This License Agreement shall be governed by and interpreted in all respects by the law of the State of California, excluding conflict of law provisions. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between BeOpen and Licensee. This License Agreement does not grant permission to use BeOpen trademarks or trade names in a trademark sense to endorse or promote products or services of Licensee, or any third party. As an exception, the "BeOpen Python" logos available at <http://www.pythonlabs.com/logos.html> may be

used according to the permissions granted on that web page.

7. By copying, installing or otherwise using the software, Licensee agrees to be bound by the terms and conditions of this License Agreement.

CNRI OPEN SOURCE LICENSE AGREEMENT (for Python 1.6b1)

IMPORTANT: PLEASE READ THE FOLLOWING AGREEMENT CAREFULLY.

BY CLICKING ON "ACCEPT" WHERE INDICATED BELOW, OR BY COPYING, INSTALLING OR OTHERWISE USING PYTHON 1.6, beta 1 SOFTWARE, YOU ARE DEEMED TO HAVE AGREED TO THE TERMS AND CONDITIONS OF THIS LICENSE AGREEMENT.

1. This LICENSE AGREEMENT is between the Corporation for National Research Initiatives, having an office at 1895 Preston White Drive, Reston, VA 20191 ("CNRI"), and the Individual or Organization ("Licensee") accessing and otherwise using Python 1.6, beta 1 software in source or binary form and its associated documentation, as released at the www.python.org Internet site on August 4, 2000 ("Python 1.6b1").

2. Subject to the terms and conditions of this License Agreement, CNRI hereby grants Licensee a non-exclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python 1.6b1 alone or in any derivative version, provided, however, that CNRI's License Agreement is retained in Python 1.6b1, alone or in any derivative version prepared by Licensee.

Alternately, in lieu of CNRI's License Agreement, Licensee may substitute the following text (omitting the quotes): "Python 1.6, beta 1, is made available subject to the terms and conditions in CNRI's License Agreement. This Agreement may be located on the Internet using the following unique, persistent identifier (known as a handle): 1895.22/1011. This Agreement may also be obtained from a proxy server on the Internet using the URL:<http://hdl.handle.net/1895.22/1011>".

3. In the event Licensee prepares a derivative work that is based on or incorporates Python 1.6b1 or any part thereof, and wants to make the derivative work available to the public as provided herein, then Licensee hereby agrees to indicate in any such work the nature of the modifications made to Python 1.6b1.

4. CNRI is making Python 1.6b1 available to Licensee on an "AS IS" basis. CNRI MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, CNRI MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON 1.6b1 WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

5. CNRI SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF THE SOFTWARE FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF USING, MODIFYING OR DISTRIBUTING PYTHON 1.6b1, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

6. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

7. This License Agreement shall be governed by and interpreted in all respects by the law of the State of Virginia, excluding conflict of law provisions. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between CNRI and Licensee. This License Agreement does not grant permission to use CNRI trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

8. By clicking on the "ACCEPT" button where indicated, or by copying, installing or otherwise using Python 1.6b1, Licensee agrees to be bound by the terms and conditions of this License Agreement.
